

# Telarah Women's Bowling Club

2014

## President's Report

One of our goals for this year was to establish a working Management Committee.

This is hard to achieve when members don't see the role of management being to actually manage. However it was resolved that all decisions made by management ( passed with 75% or more ) shall be implemented without taking to a General Meeting for approval.

This is a step in the right direction for any Club going forward. If management is allowed to manage then general meetings should be more informative, more orderly and less time consuming.

TWBC being a relatively small club with only 23 members ( 19 or less active ) must be considered a high achiever.
